

Managed accounting

Have professionals execute the day-to-day accounting services for your entrepreneurial organization by leveraging best practices and processes, developed through working with hundreds of companies.

We combine the quality of top-tier financial advisory services with a creative approach and execution tailored specifically for entrepreneurial companies. We ensure the bookkeeping tools and processes we create facilitate stability for entrepreneurial companies.

Bookkeeping

- Manage AP, AR and daily transaction volume
- Record/reconcile bank and credit card transactions
- Maintain system of records (Quickbooks, Xero, NetSuite, etc.)

Cash management & monitoring

- Coordinates with banks and investors
- Integrate collections and payables
- Establish AP prioritization and timing
- Enforce outflow planning/approval

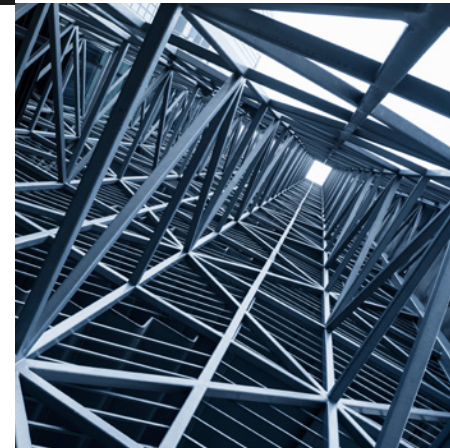

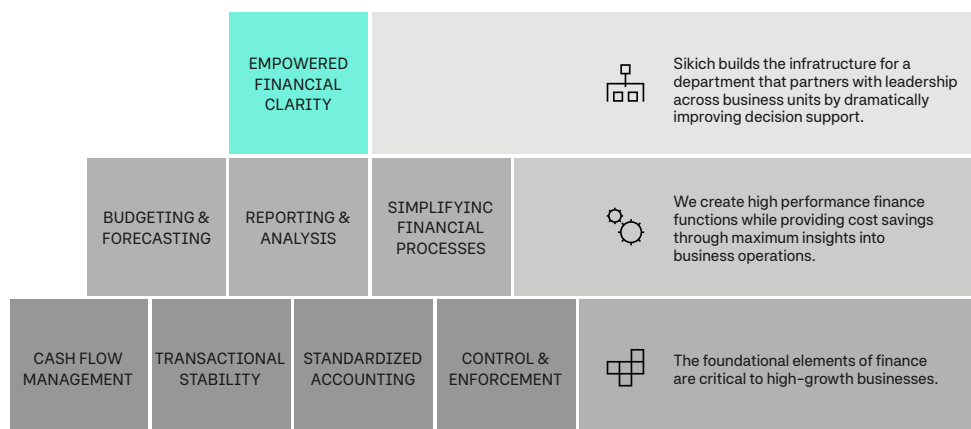

Auditable accounting

- Develop and standardize month-end close
- Reconcile key accounts
- Review cost accounting, payroll/labor

Internal controls & enforcement

- Map out key processes
- Separate authority, record-keeping and custody
- Coordinate with external auditors and regulatory agencies
